HOW TO USE THE FACT BOOK

Throughout the year, the Office of Institutional Research and Planning produces various statistical reports and graphs about Westchester Community College. This booklet is simply the result of "scooping up" most of the reports produced during the calendar year 1994 and making them available in one easy-to-use collection.

To make the *FACTBOOK* user friendly, we devoted some time to developing the Table of Contents. The statistical reports and graphs are categorized under specific topics, such as enrollments, faculty, or retention. If a report covers two topics, we have, in some cases, included a copy in both sections. A separate page number has been given to each report.

We welcome any questions you might have, and hope this will be a helpful source of recent facts and statistics about Westchester Community College.

Re: Graduation Rate and Transfer Rate to Four-Year Colleges

Date: July 1, 1994

In compliance with the federal Student Right to Know legislation, below is the percentage of first-time, full-time credit students entering Westchester Community College in Fall 1990 who either graduated from this college within three years or transferred to a four-year college without graduating.

1990 WCC First-time Full-time Students	Number	Percentage
Total Number of Entering Students*	1,326	-
Graduated within 3 years**	265	20%
Known Transfers to a Four-year College Without Graduating	164	12%
Total Graduating or Transferring	439	32%

Only those students who were verified by a four-year college as having transferred are included. Because of the difficulty in tracking students to verify their transfer, the number and percentage given above is less than the actual case. It is estimated that an additional 10% to 12% of the 1990 first-time, full-time student body transferred.

* Includes students who are matriculated but no enrolled in a specific curriculum.

** Includes students who graduated with an Associate Degree and/or an Certificate degree.
